

WATCH THEM FAIL

**A NASTY HYBRID OF
METAL, ROCK, CROSSOVER AND INDUSTRIAL**

Founded in 2016 in Graz/Austria, the four musicians of **WATCH THEM FAIL**, have been consistently and unconsciously avoiding to put themselves into a specific music genre. The individual band members influences are too different and too far spread out in order to be reduced to ONE musical formula. This is also reflected in their lyrics, written in English, German and Spanish.

COUNTLESS INFLUENCES - NO IDOLS!

The only constant in the music of **WATCH THEM FAIL** is the catchiness of their songs, which manifests itself in either the listeners head and/or legs, where it settles for good. This brought **WATCH THEM FAIL** onto stages in Austria and abroad as the first gig in the band's history ever, to open up for PRONG and 2019 on the bill of Metal On The Hill-Festival together with bands like *LORD OF THE LOST*, *ALIEN WEAPONRY*, *WALLS OF JERICHO*, *HAMMERFALL* and many more.

The first 3-song EP „hybrid“ was recorded in March 2018 and released on November 24, 2018, physically (7 „vinyl and limited cassette tape) and as a download/stream.

The first full-length album „Hybris“ is almost finished and will be released in Spring 2022.
